Hang to dry

Do not iron

Do not wash core

Keep away from fire

ENJOY COMFORT LIKE IN THE CLOUD

Memory Foam Pillow

Model Num : L025 | Product Size : 23.2*15.7*4.7Inch

For back sleepers:

Area 1: The high pillow area is suitable for people with healthy cervical spine. The natural traction on the neck and the support of the head can reduce the pressure on the back of the skull, reduce snoring and improve the quality of sleep.

Area 4: The low pillow area is suitable for patients with sub-healthy cervical spondylosis, which requires an adaptation phase in the early stage and can effectively relieve and improve cervical spondylosis after long-term use.

For side sleepers:

Area 2: Use only the wings of the pillow. You can press your entire shoulder against the pillow and place your arm on the armrest to perfectly support your head and shoulder to reduce numbness.

Area 3: Better support for the head and shoulders.

For stomach sleepers:

Area 5: arm support. Use the wing side of the pillow while relaxing both of your shoulders and arms with the pillow. This will ensure that your neck does not feel stiff in the morning.

TIPS : WHEN YOU GET USED TO THE LOW PILLOW AREA, SLOWLY MOVE TO THE HIGH PILLOW AREA, WHICH CONTRIBUTES TO CERVICAL HEALTH.

Instructions before use

- This pillow arrives rolled up inside a plastic bag. Carefully open the plastic bag and take out the pillow. Give it 5-30 minutes to slowly expand to its normal shape. Sometimes it may take longer due to the different temperatures and humidity of the environment.
- There may be a natural foam odor upon unpacking. If the smell bothers you, wash the pillowcase before use and let the pillow core air off outdoors or near an open window within 3~7 days. The odor will go away in a couple of days.
- Due to the foaming process, the pillow might show small-sized bubbles on the outside. This is a normal phenomenon.
- Our pillow is imported from Germany BASF memory foam pillow core, using the best effect of MDI (polyurethane material)
- Foam process, environmentally safe, with no harm to the human body, only to create the ultimate scientific sleep quality.

Notice:

Do not wash the memory foam core

Do not put the memory foam in the sun

Do not put the memory foam in the vent

Do wash the cover separately

Do not bleach

Do not dry clean

Tumble dry with low heat

The cervical pillow is designed for the physiological curvature of the cervical spine, which has certain benefits for maintaining the normal physiological curvature of the cervical spine and alleviating the fatigue of the cervical spine, but as a product, the cervical pillow cannot play a role in treating diseases.
